5/12/20

ARDMORE MUSIC HALL  
JESSE SOIFER  
Production Manager / A1

23 E Lancaster Avenue  
Ardmore, Pa. 19003

---

**Main System** – Meyer MSL4, Meyer MM-4XP, Meyer Galileo 408, JBL Subs and Under Balcony Delays

As the Production Manager of a music venue, my top priority is ensuring that we are delivering the best audience experience that we can. One of the largest and most complex pieces of this puzzle is maintaining an audio system that provides even coverage with a high level of clarity and power. DBS audio has set us up for success by designing and installing a system that is sonically true throughout the room, leaving our engineers with a pristine canvas to mix on. Rarely does a week go by without a touring engineer marveling at what a treat is to build a mix on our system. On top of this, Dave and his team are clean and efficient. A job is not finished until things are clearly labeled, tuned and show ready. I often find it hard to hand the wheel to people when it comes to decisions in my venue, but when dealing with our audio installation needs, it's nice to say, "Do what you think is best, I trust you".

Sincerely,

Jesse Soifer
